PROJECT'S OVERALL OBJECTIVE

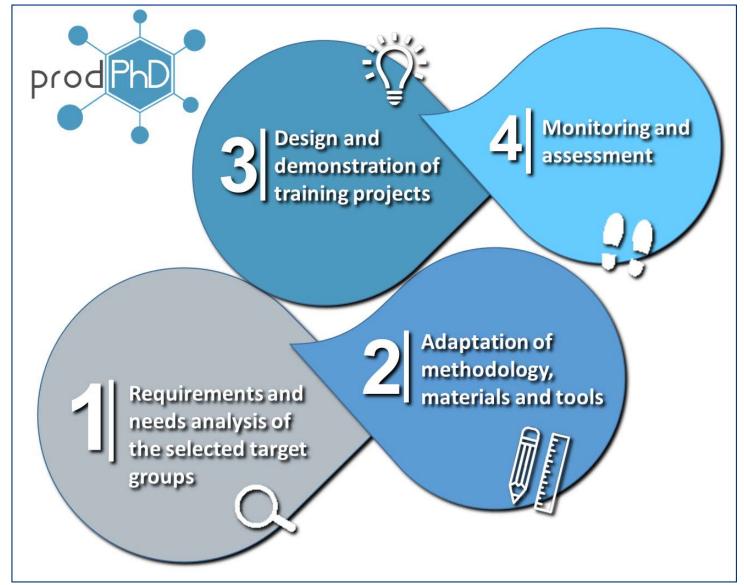

- Universities at large need to increase their offering of entrepreneurship education.
- In this project, entrepreneurship is seen as a transversal competence that educators can use in any discipline to foster the entrepreneurial mind-sets and skills of their students.
- This proposal is motivated by the conviction that the methodologies to stimulate future entrepreneurs can benefit from the new social networking and collaborative work technologies.
- The main objective of the prodPhD project is to implement innovative social network-based methodologies for teaching and learning entrepreneurship in PhD programmes.

The project will deliver and demonstrate through different pilot actions a social network-based training methodology, which will include the necessary teaching guidelines and specific "learning by doing" materials for entrepreneurship training, as well as the required prodPhD Online Training Environment, integrating customized collaborative work and social network solutions. The outcome of the prodPhD project will be openly offered to the higher education community.

OUTLINE OF THE METHODOLOGICAL APPROACH

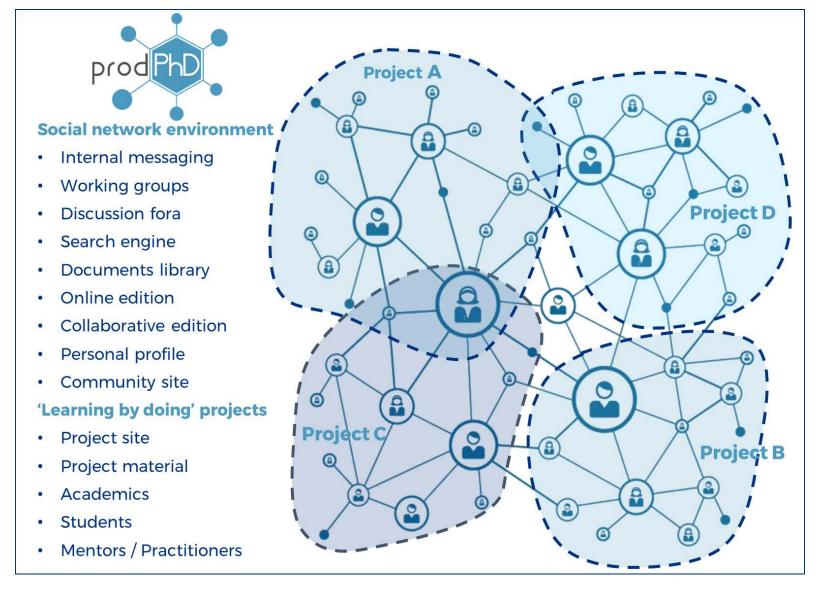

OUTLINE OF THE METHODOLOGICAL APPROACH

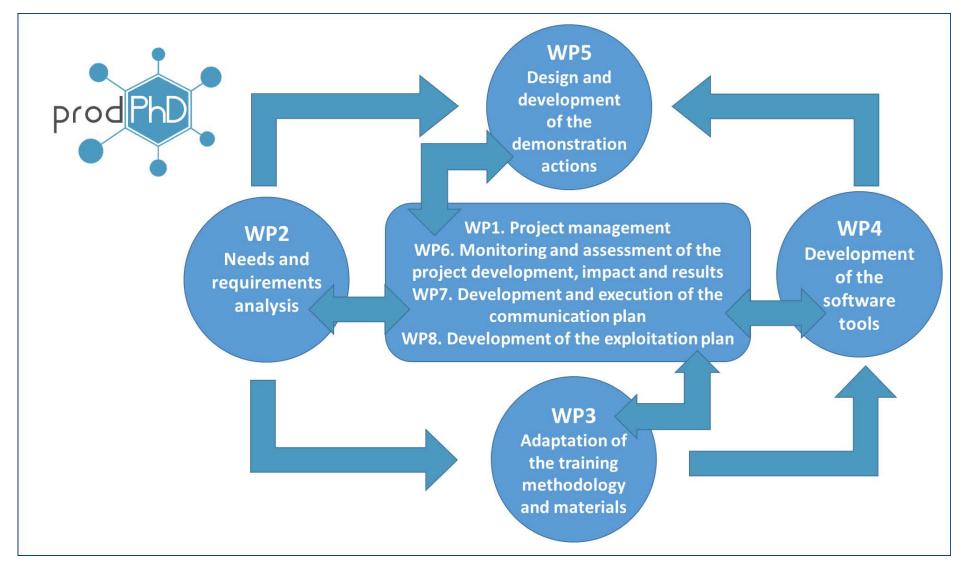

WP No	Work package title	Lead partner	Person- months		/ End nth
WP1	Project management	CIMNE	4.85	01	24
WP2	Needs and requirements analysis	UC3M	3.90	01	8
WP3	Adaptation of the training methodology and materials	IPAG	4.25	01	18
WP4	Develop. of the soft. tools and deployment of the SN platform	CIMNE	7.25	07	18
WP5	Design and development of the demonstration actions	WEGEMT	3.75	10	22
